

New shared cycleway New South Head Road

Woollahra Council is building a new cycleway that will take bicycles off New South Head Road, providing greater safety for cyclists and motorists.

Stretching from William Street, Double Bay to Norwich Road, Rose Bay, the 2.4 kilometre cycleway will be constructed by widening the existing footpath to create a shared pedestrian and cycle path. A separated bi-directional cycleway will be built along the Rose Bay Promenade.

Construction will commence in mid-March 2021, with works on the Promenade commencing from June.

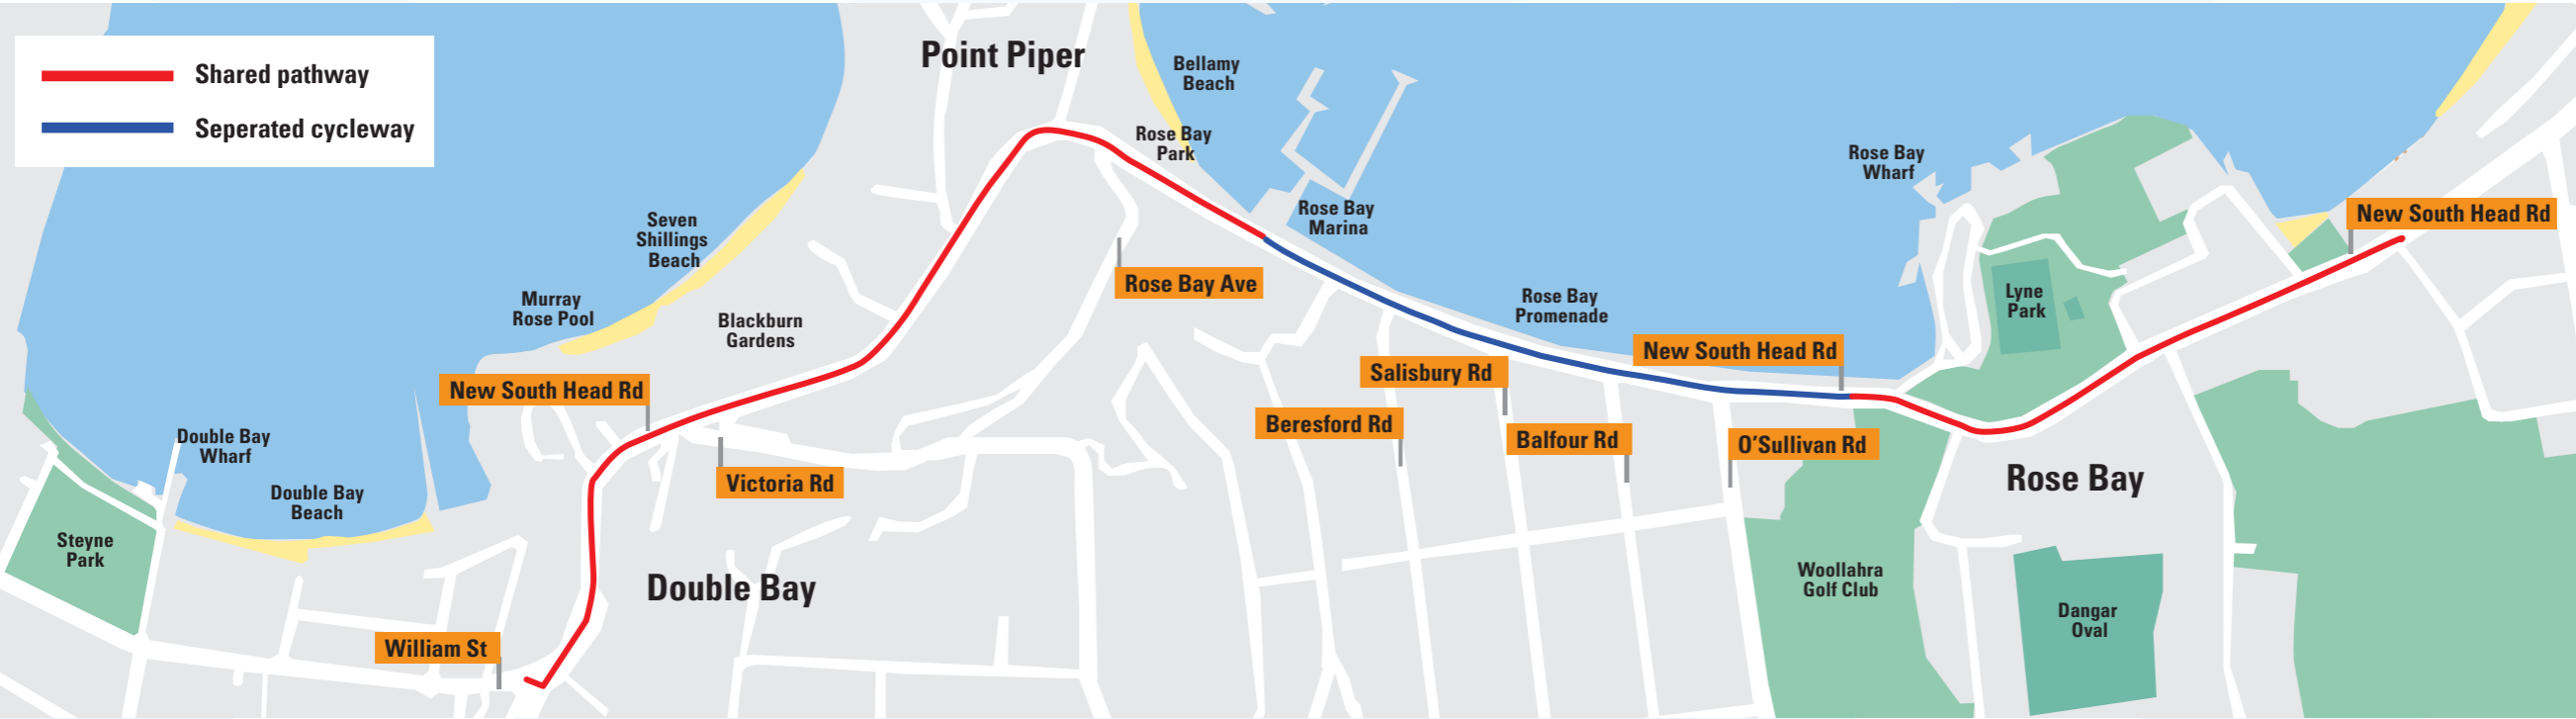

When complete the cycleway will form part of a critical east-west cycling connection, improving transport options for all and linking several of our open recreational spaces, including Lyne Park and the Rose Bay Promenade.

Separated bi-directional cycleway along Rose Bay Promenade.

Shared pedestrian and cycle path at Lyne Park.

This project is being delivered with funding assistance from the NSW Government.
